

Dear Parent/Guardian:

Please follow these guidelines to help all students stay healthy and ready to learn.

Please **DO NOT SEND AN ILL STUDENT TO SCHOOL**. The other page of this letter gives examples of when your student should not be in school.

If your student is ill, please CONTACT THE SCHOOL.

Please contact your health care provider about any **SERIOUS ILLNESS** or if you are worried about your student's health. If you need help in finding a health care provider, you may contact the local public health authority.

Please notify the school if your child is diagnosed with a **CONTAGIOUS DISEASE**, including these: *chickenpox, diarrhea caused by E. coli or Salmonella or Shigella, hepatitis, measles, mumps, pertussis, rubella, scabies, tuberculosis, or another disease as requested*. The school will protect your private information as required by law. [OAR 333-019-0010; ORS 433.008.]

Please notify the school if your student requires **MEDICATIONS** during school hours. Follow school protocols for medication at school. If your student's illness requires antibiotics, the student must have been on antibiotics for at least 24 hours before returning to school, and longer in some cases. Antibiotics are not effective for viral illnesses.

Please notify the school if your student has an **UNDERLYING OR CHRONIC HEALTH CONDITION**. We will work with you to address the health condition so that the student can learn. With consent, the school nurse may consult with the student's health care provider about the health condition and necessary treatments. To contact the school nurse or health office please call or email.

We want to support your student. Please contact us if you have questions or concerns.

PLEASE KEEP STUDENTS WITH SYMPTOMS OUT OF SCHOOL

This list is school instructions, not medical advice. Please contact your health care provider with health concerns.

SYMPTOMS OF ILLNESS	THE STUDENT MAY RETURN AFTER... *The list below tells the shortest time to stay home. A student may need to stay home longer for some illnesses.
 Fever: temperature of 100.4°F (38°C) or greater	* Fever-free for 24 hours without taking fever-reducing medicine.
 New cough illness	* Symptoms improving for 24 hours (no cough or cough is well-controlled).
 New difficulty breathing	* Symptoms improving for 24 hours (breathing comfortably). <i>Urgent medical care may be needed.</i>
 Diarrhea: 3 loose or watery stools in a day OR not able to control bowel movements	* Symptom-free for 24 hours OR with orders from doctor to school nurse.
 Vomiting: one or more episode that is unexplained	* Symptom-free for 24 hours OR with orders from doctor to school nurse.
 Headache with stiff neck and fever	* Symptom-free OR with orders from doctor to school nurse. Follow fever instructions above. → <i>Urgent medical care may be needed.</i>
Skin rash or open sores	* Symptom free , which means rash is gone OR sores are dry or can be completely covered by a bandage OR with orders from doctor to school nurse.
Red eyes with colored drainage	* Symptom-free , which means redness and drainage are gone OR with orders from doctor to school nurse.
Jaundice: new yellow color in eyes or skin	* After the school has orders from doctor or local public health authority to school nurse.
Acting differently without a reason: unusually sleepy, grumpy, or confused.	* Symptom-free , which means return to normal behavior OR with orders from doctor to school nurse.
Major health event , like an illness lasting 2 or more weeks OR a hospital stay, OR health condition requires more care than school staff can safely provide.	* After the school has orders from doctor to school nurse AND after measures are in place for the student's safety. Please work with school staff to address special health-care needs so the student may attend safely.
